

SwissPIR

Performance | Innovation | Risk

SuperDust DC130

*Smarter Chemistry.
Stronger Surfaces.
Minimal Dust.*

PERFORMANCE

Excellent adhesion under traffic.
Retains surface integrity between
wet and dry cycles.

ENVIRONMENTAL BENEFITS

Reduced operational costs by
minimising fuel, labour, and
water use.

COST BENEFITS

Sustainable road management with
long-term savings over gravel or tar.

KEY FEATURES

Water Efficiency
Versatile Dilution
UV & Rain Resistant
High-Performance Binding
Real-time dust monitoring
& reporting

Exclusively partnered with Vivo Energy, SwissPIR offers
a uniquely powerful combination: Swiss innovation,
African reach, logistical certainty, and on-site support
across the continent.

Vivo Offices,
88 Stella Street, Sandton,
South Africa
